

Mandala School Newsletter

In Science:

Brick, Alex, Felix, Martin, Leo, and Quinn are beginning to collect data for the month of November. Each day they will use websites to track high and low temperatures, sunrise and sunset, photoperiod, and the moon phase.

There will be a **supermoon** on 11/14

The advanced group is working on models of atoms and the period table of elements.

4 Nov 2016

French this week

Advance French: We are traveling around France. From Strasbourg to the Pyrenees passing by Lyon. Learning useful vocabulary for traveling and ordering food.

Middle French: We are learning the name of the important places in our community: école, hôpital, piscine, lac, parc, banque, centre commercial, supermarché, bureau de poste, gare, aéroport, etc.

Youngest French: We are working on the days of the week, the months, and daily expressions like: Bonne idée! Magnifique! C'est délicieux!

A poem by Morgan:

Room on the Broom

*We got our brooms
Yep, we got our brooms.
We flew on our brooms
We saw a black cat.
It smelled like fresh air
Or should I say cold air.
My pet crow and me were
hanging out
Together in a chair.*

Bernie Sanders paid Mandala students a visit on Halloween!
