

Working on world maps at Hamlin Park.

Mandala School Newsletter

16 September 2016

French Classes

Advance French: working in grammar and phonetics by using recordings of native French speakers and by doing a lot of oral productions.

Middle French: learning to talk about likes and dislikes and basic vocabulary related to colors, animals & food.

Youngest French: learning through play and songs the colors, the shapes, and the parts of the body.

French & Indian War Project

This war was a major turning point in North American history. Students and teachers brainstormed connections to the event and launched our newest project.

The first part is to know which countries were connected and why so we began with world mapping. Links between the major trading countries of Netherlands, Spain, France, England, and Portugal were made to colonies in the Americas.

Election Survey

Charlie designed a survey about Presidential choices which was used today by him, Ethan, and Jordan on the streets of East Aurora.

Results next week!

Seeing how play builds architects.

Math....

Youngest: patterns, counting, trading game; Marty & Leo: exponents, area

Middle: read & write large numbers, exponents, scientific notation

Advanced: proportions, systems of equations

New friends walking back from rec.
