

Scientific exploration of precipitation, compaction ratios, and mass:volume relationships.

Mandala School is a haven from the stresses of Common Core and other bureaucratic impositions. Here students can learn alongside older and younger children, explore their interests, and have a great amount of fun. In turn they become competent and confident about reading, writing, mathematics, art, speaking, and diplomacy.

Mandala School Newsletter 3-7 April 2017

Mini Science Fair: *Why does something float? How well can you identify a scent? How many drops of water will fit on a penny?*

So what if it's raining? We can still make art on the sidewalk.

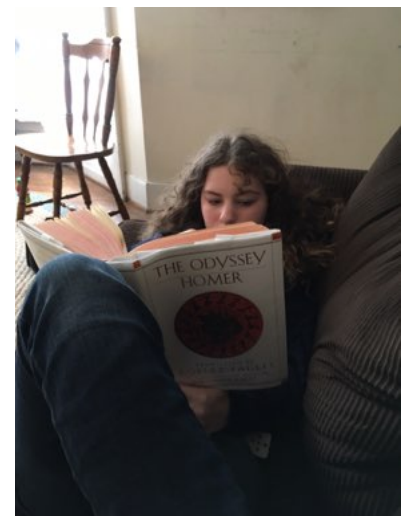

Special lunches are chosen by the wise and daring. Liza prepared Friday's lunch of salmon, spinach & garlic, farro, and asparagus followed by salad, Oma cheese & baguette, grapes, and watermelon. *Très bien!*
