

Mandala School Newsletter

September
11th-15th

This week we built a stage in the backyard. Dr. John got all the supplies and wood. We had some kids cut the pieces of wood and screw them in. The beautiful stage has a new name Nugent Memorial Theater. The stage was named after a morning dove that the students rescued.

This Is Nolan: Student of the Week

My name is Nolan. I live in Buffalo, NY and I would love to be a veterinarian when I grow up. My favorite video game is Minecraft. My spare time is usually filled with YouTube, also known as the channel DanTDM. My greatest fantasy is being in the Disney Castle but I would have to say that the place I'd most like to go is the moon. I'd say that my life is just one big video game. My favorite movie of all time is Star Wars. The world problem I would like to solve is mosquitos. I did actually have a supernatural experience, once a door just opened by itself. Coincidence?

Next Thursday, September 21st, we (ages 7 & up) are going to the Niagara Gorge. It a beautiful hike and sightseeing spot along the Niagara River. Then we are going the Niagara Power Vista Experience. Please bring a water bottle and a bagged lunch to eat on our hike. We will drive the students in cars, so please plan to drop a booster off Thursday morning if necessary. WE ARE LEAVING AT 8:30 A.M. and we will return to the school at 2:15 P.M.

ETHAN THE ARTIST!

Students learning animals in French class.

The older group of students completed their first writing assignment, an autobiography! As we get to know each other this was helpful learning about where people are from, what their families are like, and what they enjoy.

Some math topics this week include: tenths, adding decimals, money, long division, division by double digits, and scientific notation.

Ms. Laura giving a drum demonstration during music class. After, the students got a chance to play the drums

This week's newsletter was created by Kyra, Joy, and Will.

Nolan's interview was conducted by Charlie and Felix
