March 22, 2019

Issue XXII

If I had my own planet...
There would be lots of fruit
salad.

There would be lots of
parties.

There would be no animals.

There would be water.

It would have sheep.

It would get hot and cold.

Student of the Week:
Sia

How old are you? 7 (as of Monday!) 🎈

Are you a rookie or a vet? vet

Who is in your family? mom, dad, brother, and sister

Do you have any pets? I'm going to get one when I'm 10.

Who is your role model? Claudia

if you had one wish what would it be? To have 1 million
stuffsies

if you could do anything what would it be? go to the moon!

if you could have any job what would it be? to be a vet

If you could have a super power what would it be? super sonic
speed

What's your favorite food: macaroni

What's your favorite movie: *The Wizard of Oz*

What's your favorite book: *The 60th Anniversary*

What's your favorite country: North Carolina

What's your favorite video game: *Super Mario 3D World*

What's your favorite activity: learning about space

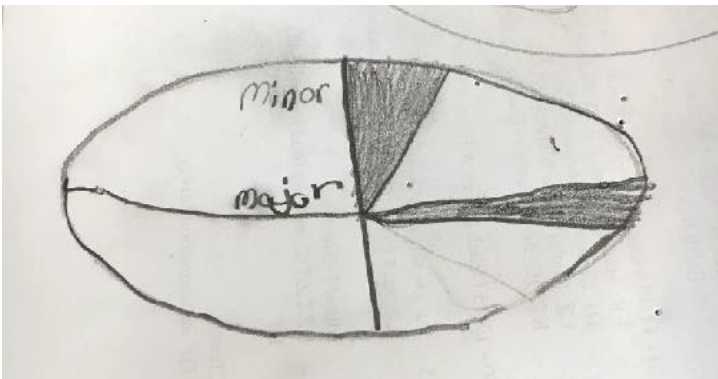

What's your favorite class: French & Spanish

Do you have a hobby: cuddling with my mom

What's your favorite animal: Kittens & puppies 🐱🐶

What's your favorite place: home 🏠

We are working on Kepler's Law of Planetary Motion in math. Kepler's first law is all planets move in ellipses, a squashed circle shape (above). We used Astronomical Units (AU) for finding the planet's distance from the sun as to demonstrate Kepler's third law, the mathematical relationship between planets. 1 AU is the distance between the sun and the Earth. Mars is 1.1881 AU which is .1881 farther than Earth from the sun.

Article by Martin & Devin

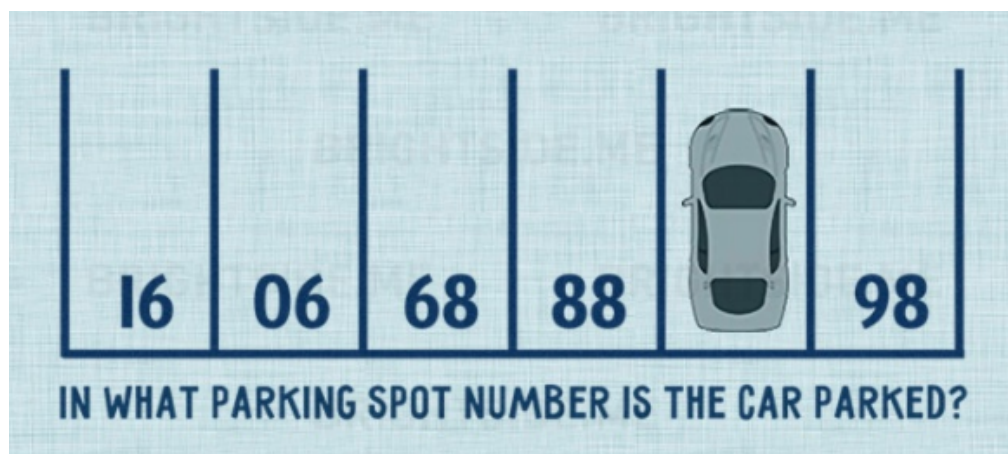

In Earth Science we are studying ecology. There are different levels for living things. They go organism, population, community, ecosystem, and then biome. Something that is living is called biotic and nonliving is abiotic. Predation is when one organism feeds off another. If two animals benefit from a relationship it is mutualism. An example of parasitism is a flea on a dog.

In Spanish we are doing a project on an animal. We have to write about their routine. Gato means cat. Ir is to go. Baño is bathroom. El gato va al baño!

By Damon

Book Report #3 will be due April 16, 2019

On Thursday the students participated in Astronaut tests to see if they had what it takes to go to space! Along with physical and fine motor skills testing were three logic tests. Let's see if you can solve them! The answer for Logic Test #1& Logic Test #2 will be in next week's newsletter.

Spring Open Houses

Thursday April 4, 2019 4 to 6 P.M.

Wednesday April 17th 3 to 5 and 6 to 8 P.M.
