Volume XI

Issue XXVIII

The older students starting reading *Devil's Arithmetic* this week. It is about the holocaust. This girl named Hannah walks through a door and appears to have gone back in time.

Student of the Week: Karly

Interview by Kate
Written by Marty

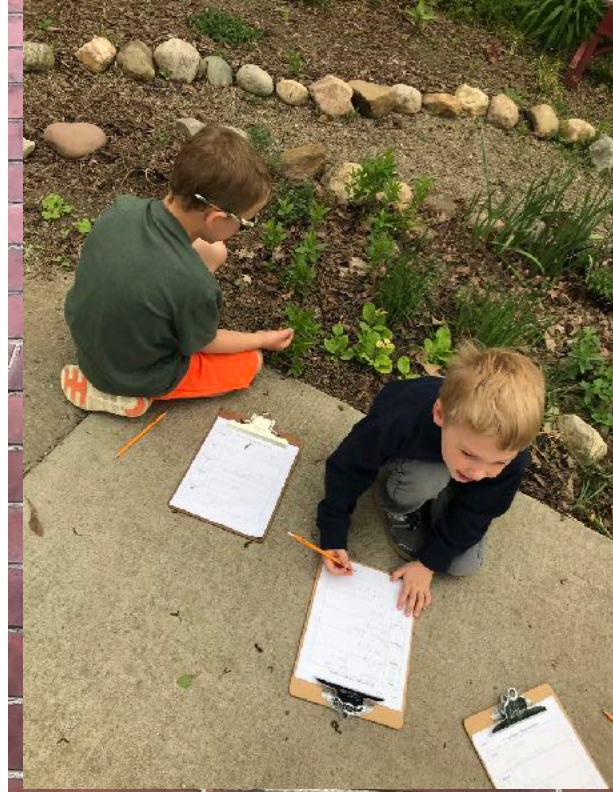

Karly is 11 years old and a rookie at Mandala. She just joined us and it has been great having her. Her family members are her dad, mom, and brother, Jackson. She has two pets, a dog and a snake, named cloudy and puddles. Her grandma is her role model. If she had one wish she would wish for a sister. If Karly could do anything she would go to Australia. She wants to be a vet when she grows up. If she had any superpower Karly would read minds. Karly's favorites: FOOD: steak
MOVIE: *Wall-E*
VIDEO GAME: *Sims 4*
CLASS: writing
BOOK: *Rebel Girls*
BOARD GAME: *Clue*
ANIMAL: French Bulldog

*Ama writing some
BIG stories this week*

Older and middle aged students have been working on constructing Rube Goldberg machines. Marty made an elevated plane with a ramp and a funnel that leads to a pulley made by Devin.

Younger students used their five senses to take observations outside today. They saw cars, heard birds and wind, touched bricks, smelled flowers, and tasted mint and chives!
