Issue XXVIX

Student of the Week: Kate

1. My name is Katherine
2. I am Ten years old
3. I am a vet
4. My family is my mom and I
5. I have two cats, Milley, and Max
6. My role model is my mom
7. If I could go anywhere I would go to Bora Bora
8. If I could do anything I would go on a shopping spree
9. When I grow up I want to be a photographer
10. If I could have a super power it would be invisibility

Kate's Favorites

1. Food: Pizza
2. TV show: Big Brother
3. Book: George
4. country: USA
5. toy: A bouncy ball
6. app: Tik tok
7. hobby: Soccer
8. class: Music
9. animal: Pigs
10. dinosaur: T-rex
11. place: Bora Bora

Interview by Claudia

Congratulations to Coral for her accomplishment! She won 2nd Place in all of New York State for her writing! Read her story below

Coral and Kate's Frosty the Snowman

Once upon a time, there were two girls, Coral and Kate. They loved to sled, snowboard, and make snow angels. They also loved to build a snowman, and have snowball fights. One day they built a snowman and it came to life! Coral and Kate hugged each other and named him Frosty.

"Hi!" he said. Coral and Kate said hi to Frosty, too. Then there were baby snowmen named Chippy, Snowy, Abby, Abigail, and Paulie.

When the girls saw the baby snowmen, they said "Awww."

Kate said, "Aww, you are so cute!" Frosty said, "Those are my cousin's babies. My cousin's name is Kristy."

Kate said, "Kristy is a cute snowman, too."

Frosty was moving to the North Pole with Kristy's babies. Kate and Coral wanted to visit!

Frosty said, "Do you want to visit us in the North Pole?"

"Sure! We'd love to visit you and the babies!" they said.

There also was a big, green, scary snowman! Coral and Kate ran and said, "Ahhh!" Frosty said, "I've got a sword!" and he pulled one out.

"Great! We have to hide somewhere safe!" Coral said. Frosty protected them. Frosty was holding the sword and began to swing at the green snowman.

"Hiya! Hiya!" he said. And the big, green, snowman was gone! Everyone was happy and said, "Yay!"

Frosty and Kristy's babies could then go to the North Pole.

The girls said, "Goodbye!"

On Tuesday we had Super Spectacular Science Stations! Six stations of different experiments. Top Left: Ama & Graham mix primary colored water to make secondary colors. Sia & Coral make art with salt, color, and glue (top right). Left: Devin counts how many drops of water fit on a penny. Below: Claudia & Jackson M. do the Magic Milk experiment together.
