Learning about adjectives in writing class on a rainy Wednesday
Left to right: Katie, Sachin, Kyle, Finn

Student of the Week: Kate M!

Q: Where would you like to travel to?

A: England.

Q: What's your favorite sport?

A: Dance.

Q: What do you want to be when you grow up?

A: Photographer.

Q: What is your favorite food?

A: Chocolate ice cream.

Q: If you could have any type of pet, what would it be?

A: A goldfish.

Q: What is the next book you will read?

A: *Diary of a Wimpy Kid*

Q: What is your favorite thing about Mandala?

A: The people.

Q: What did you think of the pandemic?

A: It was very boring.

It is officially mud season! Please bring a pair of inside shoes or slippers to leave at school. All shoes must be removed upon entering the schoolhouse.

Zachary working on his nature patterns art project

Kate C. & Ria having fun!

Art- this week in art we made spider webs. First we had to put tape in the shape of the spider web. Next we had to painted on the black paper. I made mine yellow and blue. And then we made spiders to go with it. We used black paper and then you could add any color pipe cleaners to make the legs. by Elena

The finished results of the little kids' spider webs!

The older kids working on their patterns in nature project!

Jackson & Juan are studying the Incas. In particular, Juan is studying the technology and medicine. Jackson is studying science. The Incas actually had a form of brain surgery that they would cut a hole in the skull to relieve blood or pressure and then they would patch up the hole with a gold plate! Many people actually survived this procedure. The gold plate would merge with the bone after many decades.
