

Mandala School Newsletter

Volume XIII 🐢 Issue XXVII

April 30, 2021

In art we are doing a contest by *Life is Good* to draw something that symbolizes something that makes life good during Covid. Every time someone sends in a submission

the company will give a dollar to a children's charity. If you win your design gets made into a shirt. By Devin

Student of the Week: Ella

Ella is a nice 10-year-old girl. She is the newest student at Mandala. Her favorite part about Mandala School is that everyone is kind and crazy. She lives with her Mom, Dad, two sisters, dog, turtle, and a fish whom is her favorite. She loves school. Her favorite topic is math.

Ella loves to ride her bike.

Ella thinks that racism, climate change, and littering, are some problems that need to be solved.

Knock knock! Who's there? Banana! Banana who? Banana! Banana who?

Orange! Orange who? Orange ya glad I didn't say banana? Is her favorite joke.

Her favorite food is California Sushi.

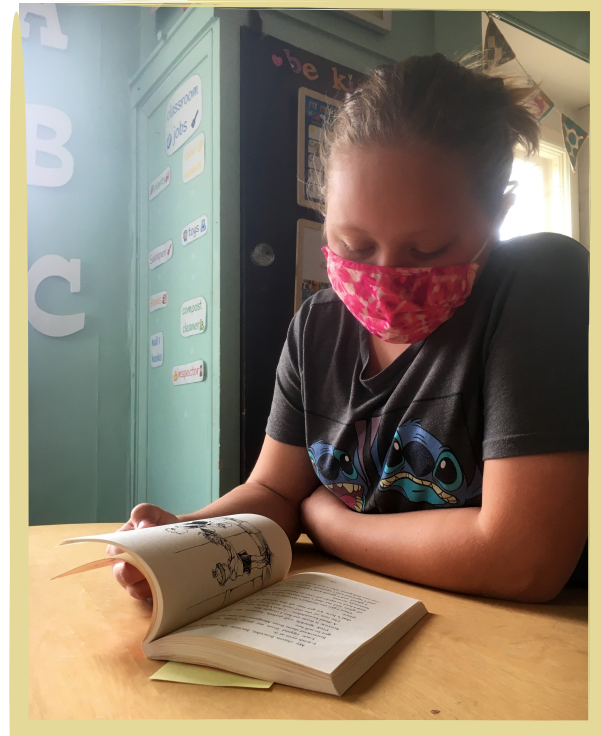

Her best friends are Zachary, Elena, and Charlotte.

Her favorite game is *Life*.

Ella's favorite movies are *The War With Grandpa* and *The Pacifier*.

Her favorite place is Niagara Falls.

She loves Heartland.

Interviewed By: Omi, Zachary, Elena, Kyle, Katie, Graham, and, of course, Ella.

Music Jingles

The past couple weeks in music we have been working on jingles. Sarah, Ria, and Kate C did a jingle on a driveway traffic light that gives you peach tea and basil. Juan and Devin did an automatic cheese spreader. Andy, and Jackson did a toast jingle. And Kate M and I did one for cottages. I think everyone could agree that they were very fun to make! -Katelyn

This week we did a teacher swap for math classes. Ms. Leah set up some stations for the kindergarteners while Ms. Kelsey took over the other group. Those students began learning about time and made their own clocks to help!

Running club!
Thank you to Omi's mom for helping

The past few days in math we have been doing trigonometry. We're learning about the hypotenuse, adjacent, and opposite angles on the triangle. On Wednesday we made dough so we could make pizzas.

By Sarah

Thank you to Ama and Inti's mom, Morena, for helping us make some beautiful works of art
