## stropwafels

Mira's perspective:

When we made stropwafels, a tiny little waffle with a kind of caramel, I put the premade batter (made by Ms. Jeannet) in and Sachin sprayed the oil and open the iron when they were done. I waited for the next one so I could plop the batter in. I made one giant one because I separated the batter and I put too much in one of them. And of course, I ate that one! Omi filled the stropwafels with the syrup. I cut some of the waffles for Ms. Jeannet's birthday. After, we had art.

Sachin's perspective:

On Wednesday we had art. It was Ms. Jeannet's birthday so she wanted to make stropwafels and I got to cook them. I'd spray the waffle iron then Mira put on the batter and I closed it. Mira cut them and Omi put the syrup in. They were amazing. Then, for the last 30 minutes we worked on our puppet backdrops.

### Mandala Summer Camp

date

Week 1: July 10 - 14th

Week 2: July 17 - 21st

# The Student of the Week is Millie

Seven year old Millie has been a student at Mandala since she was in kindergarten. She is a very funny and nice girl. She says that if she could be mythical creature she would be a pegasus because they can fly. Millie enjoys learning about outer space, she wonders how big it is.

The best part of her school day is when she gets to play with her friends. And at home she likes to play on her iPad and play with her friends. Her favorite sport is gymnastics. She can do a back bend, back kick over, splits, cartwheels, and more!

Students at Mandala say they like Millie because she's kind, inclusive, sweet, a good friend, enthusiastic, funny, and fun. Mrs. Dianna says she likes Millie's big smile because it makes everyone feel welcome.

Before winter ends she wants it to snow more. Dolphin is her favorite animal. Her favorite book is *Where the Sky Lives* because of the plot.
