This week's Student of the week is Bryce!

Bryce is seven and a half years old and lives in Hamburg, NY. His favorite animal is a lion. He wants to work hard and get better at football to go to the NFL. He also wants to practice instruments to become a musician. Bryce plays the guitar and piano. Bryce likes to watch television in his spare time, and he does not like to sleep much. Instead of sleeping, Bryce stares at his hockey puck signed by Ukko-Pekka Luukkonen (Sabres goalie), and his football signed by Josh Allen, and the pictures signed by Josh Allen. His favorite movie is the Minions Movies. If Bryce had a choice to go somewhere for three years he would go to St. Petersburg in Florida. He would go back to St. Petersburg because the resort was really nice and he had a fun time swimming. He also went to the Sabres game! Bryce likes cheese pizza the most out of all the foods. Bryce likes cheese pizza because it is yummy and cheesy. *Interview by Omi*

This week in art we started drawing crystals. We get to paint them soon. I'm going to use water paint for mine. This is a very fun project.

BREAKFAST CLUB

At school on Thursday the 16th we had a pancake breakfast. It was so fun and yummy. Zachary, Ella, Millie, and Will helped Ms. Kelsey make them. We had some butter and syrup on them. Sadly, we could only have two but they were so yummy students were coming to school early just so they could get some. Also, Mrs. Dianna brought some homemade maple syrup from her own house using the trees around her property. So thanks to everyone who helped and thanks Mrs. Dianna for the syrup. It was really good! By Johnny

By cutting a circle into small pie-shaped pieces, we could make a rectangle. To find the area of the circle we multiplied the length which is half of the circumference (πr) times the width which is the radius (r). That gives us πr^2 .

Right: Charlotte & Ella use the light box to trace crystals in art class.
